Global Services

PD-1

For use with Phototech display illuminators. In addition to these standard designs, units can be custom fabricated to your specifications.

Floor Pedestal PD-1

Welded steel base supports illuminators up to 30" x 40". Pedestal height is 36". Standard finish is textured black powder coat. Other heights and finishes are available. Breaks down for shipping and assembles quickly with tool provided.

Floor Pedestal PD-2

For larger illuminators. Pedestal is sized to match illuminator. Breaks down for shipping and assembles quickly with tool provided. Standard finish is textured black powder coat. Other finishes are available.

Floor Base BA-3

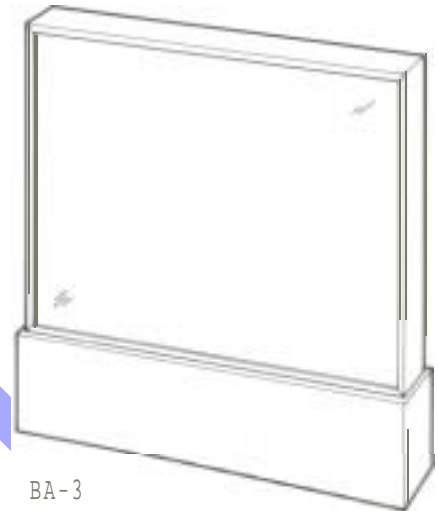

Rectangular riser base made in sizes to fit any illuminator, and to the height required. Wood construction with plastic laminate finish. Please specify height and laminate color choice.

Floor Base BA-4

Similar to BA-3 but with tapered profile. Especially suitable for larger illuminators. Please specify height and laminate color choice.

Table Base BA-5

Provides added stability for illuminators up to 24" x 36". Pair of clear acrylic feet with cushion pads attach to illuminator with screws provided.
