4-sided pedestal model with rotation

Impact Island® multi-faced backlit displays

Impact Island® allows you to present single or multiple backlit images in one stylish independent display unit. One-sided through four-sided models are available in a variety of sizes, and can be provided with or without a pedestal, or with ceiling-mount hardware. Rotation is optional. The top frame sections flip open for easy graphic and panel removal.

1-sided model; 1-sided model is identical in appearance.
